IT IS HUNTER.

Nominated For Senator On the
First Ballot.

THE SITUATION IN GREECE.

Furious Storms Along the Shore
Of Lake Superior.

THE MISSISSIPPI AT MEMPHIS.

Frankfort, March 12.—Dr. W. G. Hunter was nominated for Senator by the Republican caucus this morning on the first ballot.

Last night's session was a secret one, and no one but actual members were admitted to the floor. Nominating speeches were made and the following candidates were presented:

Ex-Congressman John W. Lewis, of Springfield.
Dr. W. G. Hunter, of Cumberland county.
St. John Boyle, of Louisville.
Judge W. H. Holt, of Frankfort.

After a session lasting until nearly 11 o'clock, the caucus adjourned until 9 o'clock this morning.

All Republican leaders spoke in favor of harmony, and pledged themselves to support the caucus nominee.

This morning Hunter was nominated on the first ballot, the vote being as follows:

Hunter, 58.
Holt, 16.
Lewis, 5.
Boyle, 4.
Verkes, 2.

All Over But the Shouting.

Frankfort, March 13.—Hunter was nominated on the first ballot this morning. He will be elected easily, and it is believed to be all over but the shouting. The Hunterites have decided not to take a ballot today, and the election may not take place until Tuesday, March 23. The Blackman camp is deserted, and all present indications mark Hunter's election as a thing to be accomplished hands down.

RUMORS OF LOSS OF LIFE.

Frankfort, March 13.—Reports from the big storm of yesterday have been coming in faster than the railroad trains, for these are generally delayed or blocked, and it will be several days before all roads are again in good running order.

Reports from all parts of South Dakota today gave evidence of the storm's fury. Some lines are buried beneath ten to fifteen feet of snow, and drifts are miles in length.

An Ashland, Wis., special says: It is rumored that numerous lives were lost in the great blizzard that swept the shore of Lake Superior last night. The storm came from the Northwest, piling the ice fifty feet high on the Apostle Islands and other points on the south shore of the lake. The snow in the streets of Ashland is from four to six feet deep. Railway traffic is almost at a standstill.

WILL TAKE CHARGE MONDAY.

New Superintendent of the Western Asylum to Enter Upon His Duties.

Hopkinsville, Ky., March 13.—Dr. T. W. Gardner, new superintendent of the Western Asylum, will arrive here Monday to assume charge of the institution. It is generally believed that none of the present assistant physicians will be retained.

DANGER IN COERCING GREECE.

Might Cause a War Involving All Europe.

Athens, March 13.—The Cretan question is passing through a period of quiescence, a lull, having followed the reply of Greece to the Powers, and everybody seems to be wondering where and when the storm will break out afresh.

In spite of the repeated assertions made in the different capitals of Europe that the Powers are acting in concert toward Greece, it is remarked here that if this was the case the threatened coercion of Greece would have been an accomplished fact long before this.

The suggestion of the coercion, real or seeming, of Greece, by the blockade of the Greek coasts, as well as the island of Crete, this would be a dangerous and difficult task.

In the first place, it would require an immense fleet of vessels, owing to the almost innumerable islands composing the Grecian archipelago, to make such a blockade effective. To make such a blockade effective, the Greek fleet would probably be the lightning of the fleet of war in Macedonia, the

beginning of a conflagration which might spread all over Europe.

The most dangerous spot on the map of Europe is the frontier of Thessaly. If Greece is coerced, or if she does not obtain the substance of her demands, she is liable to force the hands of the Powers, and this might be done in more ways than one, as by crossing the border, trying to raise the Balkans and possibly bringing about the long contemplated dismemberment of the Turkish Empire.

PLANS OF THE POWERS.

Some Serious Obstacles Confront Them.

Paris, March 12.—The following semi-official announcement was made this afternoon: The Powers, while ousted in principle, have not yet been able to reach a solution of the Cretan question. Seven propositions bearing on the question of coercing Greece were prepared by the admirals and forwarded to their respective governments.

Germany immediately telegraphed to the Powers that she would accept the proposals down to the seventh.

Austria wired the Powers that she would accept the whole of the proposals, but, as Emperor Francis Joseph was at Cape Martin, she must have time to consult with his Majesty.

Italy telegraphed her acceptance of all the proposals of the Admirals, but it was added they must be submitted to the Cabinet Council, which would be done within three days.

Russia proposed a further collective note demanding the withdrawal of the Greek troops from Crete. France seconded the reply of Russia.

During the four previous general agreements it was suggested that the Powers should each advance a certain sum of money for the pay of the gendarmes and for the expense of organizing the autonomous government of Greece.

This was immediately objected to by Germany on the ground that she was not willing to spend a penny for this purpose.

France this afternoon proposed to the British foreign office that the Powers proceed immediately to organize the gendarmes, naming a governor of Crete from Holland, Belgium, or perhaps from Switzerland.

Several names were suggested and considered. Great Britain points out the semi-official announcement concludes that the members of the previous Cretan gendarmes ran away and mutilated, and that the Greek troops were not sent for this purpose. Consequently this proposal will probably be a modus vivendi by which the situation will be solved, as there is no doubt the Greeks will accept it.

THE WORST.

Probably Reached in the Mississippi Flood.

Memphis, Tenn., March 12.—The Mississippi river at Memphis tonight is nearly stationary, the gauge registering 25.8 feet.

At Helena, the water rose seven feet in a foot, the gauge showing a height of forty-three feet, which is six feet above the danger line. At Vicksburg, Miss., it is nearing the danger line, which is forty-one feet. Within the past twenty-four hours there has been a rise of five-tenths of a foot, the height now being 38.9 feet. At Shreveport and New Orleans the river is also rising.

The rivers tributary to the Mississippi are showing rapid rise within the past twenty-four hours, the Cumberland at Nashville this morning was at 33.5 feet, a rise of 3.6 feet, while, however, is considerably below the danger line of forty feet. At Cairo, Mo., the Tennessee river rose 6.1 feet within the past twenty-four hours, the water now being 28.4 feet above the danger line at this point being 40.5 feet.

With cool weather in the north and no more rains in the Ohio valley, the worst of the situation would probably be over here in a week, but rain and weather may send the river a few feet never before known. It is now 50 feet above the danger line and may possibly go two feet higher, to the high water mark of 1890.

RAILROAD TRAFFIC.

Blocked—Freight Trains Stalled in Minnesota and the Dakotas.

Ishpeming, Mich., March 13.—The worst storm in five years is raging in the Upper Peninsula. Freight trains are blocked on both the South Shore and Chicago-Northwestern lines. A freight train on the latter road has been stuck in a drift at the Buffalo mines. Fifty men are now at work clearing the track, but if the storm does not soon abate it is likely that the train will not be removed today. All passenger trains on this end of the road are tied up on account of the freight blockade on the main line.

Two freight trains on the western end of the South Shore between Neshota and Duluth are tied up and will not be moved until the storm is over.

In some places the snow is from six to ten feet in depth, with drifts

readily growing larger. South Shore passenger trains between Marquette and Duluth started out on time with doubled heads.

A dispatch from Hudson, Wis., says all the trains running on the different branches of the Omaha are from two to eight hours behind. The roads throughout Northern Wisconsin are blocked and business is at a standstill.

FOUR DAYS' RESPIRE.

Pending a Further Examination of the Case.

Frankfort, March 13.—Gov. W. O. Bradley today granted Alonzo Walling a four days' respite. It is now strongly believed that Scott Jackson will confess before the day of execution, and his confession may have some bearing on the case of Walling.

In reference to the case of Jackson the Governor has given out the following:

"The verdict of the jury and the judgment of the court were carefully reviewed by the board of appeals and the judgment all on point. On petition for rehearing the board was adhered to. Nothing has transpired since that time which was not considered. I have carefully read the record and can see no reason which would authorize my interference. The pardon is therefore refused."

WILLIAM O. BRADLEY,
Governor of Kentucky.

Accidentally Shot.

Richmond, Ky., March 13.—Ezra Reeves, a bright, twelve-year-old boy, was accidentally shot this morning. He had secured a loaded pistol and was playing with it when discharged with fatal results.

GIVING UP IN DESPAIR.

Washington, March 13.—Hon. A. T. Woods, the newly appointed senator from Kentucky, is still in the city, but it is believed by his friends that he has about abandoned all hope of being seated.

Another Outrage.

Russellville, March 13.—There is great excitement here over a brutal outrage committed on the person of little Nellie Keeton, aged 12 years, William Thomas, who is charged with the crime, is in jail and is being carefully guarded by the officers. There are grave fears of a lynching.

LAMOREUX DISMISSED.

Washington, March 13.—Silas Lamoreux, of Wisconsin, was today dismissed from the cabinet as a result of his connection with the Lake front scandal.

Attempted Suicide.

Clarksville, Tenn., March 13.—Thomas Bourne, a wealthy citizen of this place, is dying from wounds inflicted by himself with a pistol.

THE COURT HOUSE.

Mr. D. W. Settle Qualifies as Magistrate.

A Couple of Suits Filed in the Circuit Court.

Mr. D. W. Settle, this forenoon qualified as magistrate, having been appointed to succeed "Squire Tully," recently elected county judge.

Mr. Settle received his commission this morning, and gave as his bondsmen Messrs. M. G. Milam, D. B. Settle and Chas. Frederick.

E. M. McFadden and others this afternoon filed suit against a local building and loan association to settle the estate of the father of the plaintiff.

Henry Wood this afternoon filed suit in the circuit court against his wife, Minerva Wood, for divorce, alleging abandonment.

SUSPENDED JUDGMENT.

Couple Released From the Lock-up Today.

A Loathsome Disease Rendered Their Incarceration Dangerous.

Judge Sanders this morning suspended the judgment against John Solomon and Mrs. Annie Hutchinson, fined \$20 and costs several days ago for adultery.

The couple has since been in the lock-up, and both man and woman are afflicted by a loathsome disease, as a result of which City Physician Williamson recommended their discharge.

The girl went to her former home on First street, near Broadway, and found it had been rented by other persons during her incarceration. Nothing daunted, however, she deposited her traps and clothing there, and settled down just the same as of yore.

Both man and woman promised to leave the city.

HEAD CUT OFF.

Awful Fate of Lee Crawford, a Paducah Brakeman.

FOUND DEAD AT GREENVILLE.

Supposed to Have Been Run Over By His Train, No. 295.

WILL BE BROUGHT HERE TONIGHT.

Lee Crawford, aged 40, a colored brakeman on the Illinois Central who lived in Paducah, was found dead under local No. 295 about 7:30 o'clock this morning at Greenville, seventy miles above the Louisville division.

Crawford's head was completely severed from the body by the wheels, and his right arm was cut off.

The train was heading into a siding at Greenville directly at the station, when Crawford was first missed. The train was in charge of Conductor Barrett, and it was but a short time until the mangled corpse was found under the cars. How he met his fate is not known. No one saw him fall, and no one heard him speak a word. He is supposed to have fallen between the cars and been run over.

Crawford has a wife living at Ansony, Miss., but he had been running on this division of the Illinois Central for two years, and was well known here.

His remains will be brought in this evening at 6:05 o'clock.

AN APPROACHING OPERA.

Preparations Being Made to Assist the Public Library.

The Favorite, "Haymakers," Will Be Ably Sung in Paducah.

Soon.

That the public library plan of the Y. M. C. A. is arousing the interest of all good citizens of Paducah, they have secured the help of a number of professional and amateur singers and propose shortly to present in specific form the favorite "Haymakers," for the benefit of the library fund.

The principals include several performers whose vocal endowments and training especially qualify them for the part assigned. The chorus is being very carefully selected, and is to be drilled by Prof. H. O. Faribault, a leader of much experience, and the costumes and mounting will be first-class.

The object is most worthy, the performance will be most attractive, and it is probable that the company will be a permanent organization which would be a credit to the city.

MANY APPLICANTS.

High Water Sufferers Want Municipal Help.

Mayor Yeiser Daily Importuned By the Destitute.

Since the spreading of the waters of the Ohio began driving the residents of the low lands out of house and home, Mayor Yeiser is kept busy receiving calls from the sufferers.

As usual, he renders all help possible whenever a worthy subject appears, but many of the pleas for aid are of necessity rejected.

Today a young man from Jackson, Tenn., named Williams, who was sick and penniless, asked for transportation, but he could not be accommodated, as he had no claim on the city, and the mayor is not authorized to render assistance in such cases.

The high water, however, affords many unworthy people a pretext for begging alms, and great precaution is taken that none of these shall be assisted.

SETTLING RISING.

River Men Quit Predicting Situation at Cairo.

Six inches a day is the way the river is coming up.

Yesterday afternoon at 3 o'clock the gauge here showed 44.5 and this afternoon it registers just 45 feet.

River men have quit predicting the future stage of the river. One of the oldest river men was asked this afternoon concerning the matter, and said:

"No one can tell; it may go one foot higher and it may rise five feet. It depends altogether now on what the Mississippi will do. If that

stream continues falling at Cairo, as it is now doing, it will soon make room for the Ohio to let out enough of its surplus water to preclude the possibility of any danger from what is coming from above.

A gentleman in from Cairo today states the water in that place only jacks about two feet in many places of being over the levee at that place.

The L. C. railroad track for a distance of two or three miles from Mounds to Mound City is covered with water to the depth of two or three feet.

A BAD WRENCH.

Mr. C. W. Gray Falls at Ninth and Broadway.

Struck on a Crippled Limb, and As a Result Cannot Walk.

M. C. W. Gray, the well known young piano tuner, with Kimball & Co., met with a painful mishap this forenoon about 3:30 o'clock.

He went into Gibson's drug store, corner of Ninth and Broadway to get a cigar, and in running out to catch a car the tacks in his heel caused him to slip on the iron step and he was projected violently to the sidewalk.

He has one weak knee, and on the fall his right leg was thrown and he badly wrenched.

He was carried to his room at Mrs. Hall's boarding house, corner of Eighth and Jefferson, and this afternoon was resting easy, but unable to be out.

HAIRY FINE.

The Other Alleged Defendants All Get Off.

\$20 Was Pretty Light—Other Cases Before Judge Sanders Today.

Frank Haffey was fined \$20 and costs in the police court this forenoon for a breach of the peace. The defendant against Will Haffey was continued until Monday, and the cases against John Lydon and Willis Moore for carrying a gun were also continued until Monday.

It was shown that the two Haffey boys were drunk and forced Moore to fight. Lydon took no part in the affray.

Wm. Land, who wore overalls and a garter, was fined \$1 and costs today for drunkenness.

Will Taylor, a diminutive colored boy, was charged with going to Sam Lichels place on Court street, using profane language and refusing to leave when asked. The case against him was continued, and he was released in his own recognizance.

JOHN ROGERS' TRIAL.

Is Set For Monday Before Justice Winchester.

McCarthy Still in a Very Bad Condition.

There is against John Rogers, of Rossburg, charged with maliciously cutting and maiming McCarthy, a couple of months ago, is set for Monday before Justice Winchester.

Combe Anderson Miller has for the past week been engaged in summing up witnesses, but this morning report this McCarthy's condition is practically unchanged, and it is believed he will be unable to attend the trial Monday.

Those is well known to the reading public, Rogers and McCarthy a difficulty over playing a horse, a stall, and McCarthy was injured, Rogers escaped, but afterwards gave help up.

MAKES THE WEAK STRONG!

The Foremost Athletic Trainer in America

Recommends Paine's Celery Compound.

John Graham is the foremost man in American athletics. It was he who managed the successful team from this county that attracted world-wide attention in the recent Olympic games at Athens. Formerly trainer for Columbia college, then for Princeton and finally for Harvard university, Mr. Graham had much to do with raising the standard of Collegiate sports. A small army of gentlemen have been guided by him since he left Harvard and took his present position, superintendent of the famous gymnasium of the Boston athletic association. Three of his proteges, White, Brewer and McCarthy, have just won the New England championship at the mile, quarter-mile and five-mile run. He has trained Weeks of Brown university, one of the best college sprinters in the country. Many another student of what makes men and women strong has used and has recommended Paine's celery compound as the best known remedy for those who are weak and dispirited, the overworked and enfeebled persons who are most concerned in the general awakening of interest in outdoor exercise and indoor attention to the proper rules of health. It was the ablest professor of medicine and surgery in any college, that giant among men, Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, who after years of patient investigation and study, assisted by all that was best in the progress of medical science at home and abroad, first discovered the formula of Paine's celery compound. There was no doubt of the interest that would be awakened at once by the announcement of any discovery by Prof. Phelps. The formula from the first was furnished to the best physicians and forthwith the remarkable Paine's celery compound was personally used by them. The result of the closest investigation might have been expected. It soon required a considerable industry to produce the remedy, and rapidly but steadily, without ceasing, the demand for Paine's celery compound has increased, until today there is no remedy that in comparison begins to hold half the public attention that it holds. In untold number of cases where every other remedy has been tried and failed, Paine's celery compound has attained the wished-for results, making the weak strong, purifying the blood, rebuilding the worn-out nervous tissue, curing chronic sickness, proving a never failing and permanent relief for rheumatism, neuralgia, kidney diseases and disorders of the liver, all due to the impairment of the person's nervous system, the consequent impoverishment of the blood and the breaking down in consequence of some particular organ. When Mr. Graham writing Jan. 18, 1897, said: "I have used Paine's celery compound to my benefit, and I have no doubt that any person undergoing great physical and mental strain would find it of great service. For students especially it ought to be of great value."—When so prominent a student of bodily health, who has no equal, unless, perhaps, one mentions Dr. Sargent of Harvard, with whose methods Mr. Graham became well acquainted at Harvard—when Mr. Graham says bluntly that after his experience he believes others would find Paine's celery compound of great service, what man or woman out of perfect health can afford to neglect his well considered and expert advice? There is no doubt that Paine's celery compound cleans the blood of eczema, salt rheum and such humors, not only in the spring, that is so favorable a time, but at any time during the year, so thoroughly that nothing further is heard of them. Paine's celery compound has been tested, tried, scrutinized and heartily approved by so many impartial physicians and men and women whose word in any matter would not be questioned for a moment, that one must be stubborn-minded indeed who prefers to mope around half sick instead of verifying these positive, straightforward statements. E. R. Dalton, a prominent member of the "Daisy, the Missouri Girl Company," was principal support and stage manager for John Wilkes Booth 37 years ago, when Booth was playing in the early sixties. He was on the stage at Washington the night Lincoln was assassinated. By the way, it's about time that Squire Dugger, of Stringtown, Ill., was getting another letter from Booth whom the Squire claims is in South America. The squire gets a new letter invariably just before he makes a trip to Paducah—and always forgets to bring the letter with him.

A revival has been in progress for several weeks in a town neighbor to Paducah and the young bachelor preacher who is conducting it has encouraged his converts to believe that the Lord makes Himself known to them in a personal way. Last Wednesday night a young woman arose to "give in" her experiences. She related a wonderful vision with which she had been favored and concluded by saying that it was revealed to her that she was to marry the young preacher. He says he is already engaged to another young woman, and that he fears it wasn't the Lord who manifested Himself in that particular instance.

The following is a bill recently introduced in Kansas to give statutory force to the Ten Commandments:
"Whereas, The men of this generation have become doubters and scoffers; and
"Whereas, They have strayed from the religion of their fathers; and
"Whereas, They no longer live in the fear of God; and
"Whereas, Having no fear of punishment beyond the grave, they want only to violate the law given from

Mount Sinai; therefore, be it enacted by the legislature of the state of Kansas, etc.:
Then follow the Ten Commandments each commandment being made a section. A graduated scale of fines is prepared for violations, as follows:
For "having any other God," \$1000.
For "worshipping a graven image," \$1,000 and one year in the penitentiary.
For "not keeping the Sabbath day," \$500.
For refusing to "honor thy father and thy mother," \$500 and six months in prison.
For "committing murder," hanging.
For "adultery" imprisonment for life.
For violating the commandments which say, "Thou shalt not steal," "Thou shalt not bear false witness," "Thou shalt not covet," fine or imprisonment, at the discretion of the court.
The bill will probably pass the house.

The Metropolitan Democrat roasts the Paducah News in its last issue because it failed to give the name of the Metropolitan man who used to come up to Paducah to see shapely limbs. It supplements its roast with the following threat:
"The Metropolitan bar is justly indignant, as well as all the respectable citizens of the town. The Democrat has been lenient, but it can 'spring' about as many 'sensations' as the Paducah papers, and it will give names of some of Paducah's '400' who come down to the 'country' to walk the streets in open daylight with common prostitutes, members of Paducah's police force who spend days at a time in a drunken debauch, sleeping off their drunks on the beer boxes in the back rooms of saloons and asking that nothing be said about it for fear they will lose their \$50 jobs, etc.
If you want these names, the Democrat will not hide behind a vague 'description' as did the News."

Miss Myra Rucker, age 15, a daughter of Mrs. Mary A. 15, and adopted daughter of Mr. and Mrs. A. W. Watkins, No. 429 South Seventh street, died last night at 10:35. Her illness was too great to be overcome by earthly assistance, so her soul returned to its resting place where sickness and death cannot enter. Her recovery was quite hopeful until a few days ago. She professed religion and cherished a bright hope in Christ the latter part of last month. Her intention was to join the First Baptist church when her health would permit her to go to the church. The funeral will be conducted by Revs. C. W. Dupe and C. H. Backs at the home of the deceased, No. 429 South Seventh street, tomorrow, March 14th, at 2 o'clock. A cordial invitation is extended to all who wish to attend.

Elder S. R. Cotter will preach at the Trimble street Christian church tomorrow, as follows: Morning subject, "Parable of the Tares." Evening subject, "Divine Drawing." The public is cordially invited to attend the services. Come friends, and bring a friend with you. Bring your bible and scan the scriptures with us. "Where the bible speaks we speak, where the bible is silent we are silent." The "murders bench" idea is a human invention, instituted by Whiffled, a Methodist preacher, in England a hundred years ago. The method being successful, has continued to this day. But the scriptures are silent on Whiffled's idea. All bible students agree that the "murders bench" is a human institution unwarranted and not sanctioned by Holy Writ.

It is impossible to be happy or cheerful or useful when one is suffering from a disconcerting cold or a nasty little cough. It is wonderful that some people will go on from day to day suffering from these distressing disorders when a 25-cent bottle of Dr. Bell's Pine-Tar-Honey will relieve the most stubborn case.

First Statement. The Church Building society of the Catholic church is making unusual efforts to swell the building fund, and it is confidently expected that a fund sufficiently large will be secured to warrant the trustees in commencing work on their new church early in 1928. The first financial statement of the society will be read at both masses tomorrow.

New Restaurant and Barber Shop. Mr. John W. Scott, of St. Louis, has located here and will open a barber shop and restaurant on South Second street.

Married Men's Meeting. A special meeting will be held Sunday afternoon at 4 o'clock to consider some features of the problem of social purity. The Y. M. C. A. gymnasium has been secured for the purpose and an invitation is extended to all married men, especially the fathers, to attend this service. Revs. W. K. Penrod and W. H. Pinkerton will make the address, and a paper upon a special phase of the subject will be presented by Mr. J. A. Schaad, secretary of the Y. M. C. A. Boys not admitted.

Y. M. C. A. On account of a special service in the gymnasium at 4 o'clock Sunday the bible class meeting at that hour will be omitted. But "Brotherhood" meeting will occur at 5 o'clock as usual.

A special members' meeting is called for Monday, the 15th, at 8 o'clock to consider a proposition for several new features. One of these will be a bowling alley. Many of the Associations in America now have these as a department of the gymnasium and quite a number of members having expressed a desire for one here. This meeting is called to consider the matter. From the enthusiasm manifested this meeting will doubtless develop some definite plan to secure this new feature. All members are urged to be present.

SURPRISE MARRIAGE.

Mr. Luther Graham and Miss Susan Adeock Married.

Stole Away to Paris, Tenn., Yesterday Afternoon and Were Married—Other Marriages.

Quite a surprise was created when the marriage of Mr. Luther Graham, of the city, to Miss Susan Adeock, of Pembroke, Ky., became known last night. The couple were married at Paris, Tenn., at 4 o'clock yesterday afternoon in the parlors at the Caldwell House, Rev. C. E. Newell, of the Methodist church, officiating.

They met at Paris by appointment, the groom being accompanied by County Clerk Chas. Graham.

The bride is a charming young lady of Pembroke, and a cousin to Mrs. Chas. E. Graham, of the city. She met her husband while visiting here. She has a sister, Mrs. Thomas Porter, of Pembroke, with whom she has lived for some time.

Mr. Graham is a member of the well known tobacco firm, Farmer, Graham & Co., and a brother to County Clerk Chas. E. Graham.

The couple are at present at 255 North Eighth street with the latter.

Mr. J. J. Langston, manager of Kimball Hall, was on last Thursday morning at Bardwell to Miss Mollie Patton, well known in the city, and a sister of Messrs. Frank and Will Patton.

Mr. Frank Misere and Miss Eliza D. Knight were married last night at the residence of the bride on Jackson street.

TAKEN TO HICKMAN.

Mordis Delivered There Yesterday By the Sheriff of Graves.

There is said to be strong feeling against him.

J. I. Mordis, the alleged Fulton county rapist, who was arrested a few days since at Mayfield, was yesterday delivered by Sheriff Cook, of Mayfield, to the Hickman authorities, and Mordis was landed in jail.

According to gentlemen from that locality today, there is some danger of a mob dealing out summary justice to Mordis, as the feeling in the locality where he now languishes is very bitter towards him. In the first place because he is believed to know something about the outrage perpetrated on Miss Lydia Carver, and also because he has brought suit against some of the most prominent people of the section for big damages. He was hanged by a mob three times, but refused each time to divulge anything, if he knew anything.

A number of the local Elks are already making arrangements to attend the Grand Lodge meeting and reunion at Minneapolis next July.

The Elks always anticipate these annual meetings with a good deal of pleasure, and it is quite likely that Paducah will be well represented at Minneapolis this year. The Paducah Elks will probably be joined at this place by delegations from Henderson, Owensboro and Jackson, Tenn.

Paducah Chapter No. 50, R. A. M., has five or six candidates for the Mark Master and Past Master degrees. Chapter meets on second Tuesdays of each month.

A delegation of Paducah Masons went to Grahamville last Thursday night, hoping to institute a new lodge at that place. This was not successful, however, on account of the small attendance at the meeting.

RAILROAD RUMBLINGS.

Items of Interest Relative to the Railroads and Railroad People.

S. C. AND ST. L. MILEAGE. Agent McDaniel, of Hardin, was in the city yesterday.

Fireman Hugh Edwards, off duty so long, was around yesterday somewhat improved.

Mr. A. J. Welch, the division passenger agent, arrived in the city on train 51 this a. m.

Switchman Elbert Beck laid off yesterday, but stood up last night in a brand new suit of togs as best man to Frank Morthland when he got married.

"Talking" Jim Herring, the throttle puller on the 407, backed her on to a string of loads five blocks long this morning and left the yards at a Nancy Hanks gait.

The gourmands, epicures and the bibulously inclined of the city will do well to remember and attend the free feast to be given at Crawford's "Edo" place corner Fifth and Norton, tonight.

Where were the reporters yesterday while it was snowing? None of them noticed it. Small flakes of the fleecy stuff fell for nearly ten minutes about 9:10 o'clock up around the depot.

Engineer Henry Buck, of the 345, is taking a rest, and Tommy Engler is doing the "chase" around the yards with her. Ike Wayne keeps her steam gauge needle at the proper mark.

The other day down at Hatchie river a piling fifty feet long was to be driven the required depth. When everything was in readiness Sandy Herring turned on the steam and the hammer ran up the leads to the tripers when it was knocked from the shears and down it dropped on the head of the long timber. The hammer was caught on the rebound, but the piling, Frank Hogwood says, must have gone through to China, as it went clean out of sight, and in probing for it with the longest iron rods they could sink they failed to find it.

Aaron Hurley, the bustling baggage checker for Terrell Bros., transfer line is tight headed, and since the high water cannot get out to the crossing to board the incoming trains unless he walks the trestles. This he is afraid to try for fear of dizziness, so the trains have been checking up at Eleventh street nightly to allow him to get on. The other night Sam Lowe was being in train No. 103, and had not been notified of the arrangement and paid no attention to the variance and jestulations of Hurley, and he had to foot it down the track to the depot and when he arrived from that the opposition hacks had gotten most of the passengers. We can't see why Aaron is afraid to walk trestles, for as long as his head swims he can't sink.

Owing to the extreme high water of the muddy Mississippi river at Memphis, Wolf river, a tributary that empties in at that city, is backed up a long distance above this company's bridge across it, where a water tank is maintained. The pump that it is a regular Sir Isaac Newton and says he expects during the overflow to catch out fish, alligators, dolphins, and possibly a whale or two. He took a run into Memphis yesterday for a supply of the proper tackle for these men-of-war of the river. While the engine was taking water at the tank last evening the baggage men passed out to him a coil of cable wire two and a half inches in diameter for a trot line, two reels of barbed wire for fishing hooks, and he says he will use fifty pound shots for bait, besides all the car dogs he can corral through the neighborhood as bait for the saurians. What disposition he will make of his catch he did not tell, but it is surmised he will send them to the boarding cars at Hatchie bridge.

An amusing incident happened at the Sixth street crossing yesterday. The switch crew were on the "spot" for a short time and were congregated at the "shanty" springing yawns, when Jim, a night witted, gawky young "con", came along and the boys commenced to play pranks upon him. The fun was fast and furious, and while at the top notch Dr. Redlick drove up in his buggy and stopped to witness the sport. The doctor's colored footman was in the buggy with him and was splitting his sides laughing at the antics of Jim. "Someone" stepped out and asked the doctor if it was not all put on. The doctor replied: "With some of them, no doubt, but with some it must be real nervousness, for instance," and with that he threw down the lap rug and touched his driver on the knee. He sprang up as if shot and fell out of the buggy in a jump, twisted and withered over the ground and on old Sim's antics to such an extent that the boys forgot him, and when they looked around he was seen turning the corner of Eleventh street at race-horse speed.

It is a jolly crowd with the pile driving outfit down at Hatchie river. They have been there some time, and are roughing it in the dismal swamp surrounding the bridges. Last Sunday a number of them went to Memphis for a little recreation and other necessities. They visited a hotel for
